

Expanding Strata of Moral Valuation & Self-Identification Energized by Agape

See Integral Lifework Developmental Correlations Chart for Detailed Descriptions www.level-7.org/resources/Developmental_CorrelationsV2.pdf

= RADIANCE

Temporary emanations of increasing moral altitude, enlarging arenas of compassionate intention and action, greater inclusivity and integration of self-concept, and more unitive political economy, which then all coincide with each other. As long as every supportive dimension of being is fully nurtured and harmonized *individually and collectively*, then RADIANCE can energize, grow, and eventually stabilize: as within, so without.

See Integral Lifework Overview
www.integrallifework.com/resources/ILOverview.pdf

Each dimension will differ in emphasis, capacity and efficacy for each person and culture. Likewise, how all dimensions are nourished and harmonized with each other will also be unique. But when all dimensions are fully energized and nurtured, and all barriers mitigated, then *agape* and all of *agape's* prosocial children will naturally spring forth.

RADIANCE propagates like any waveform, interacting with all other emanations: sometimes amplifying, sometimes interfering, sometimes negating, and sometimes synthesizing new, unexpected patterns.

RADIANCE is creative and destructive at the same time, and is not permanent.
